

Designed by Nature

[DISCOVERED BY YOU]

From the moment you are greeted at the airport or dock, immerse yourself in a resort in tune with the unique environment that surrounds it.

Your journey began more than four decades ago, when the founders of Anthony's Key Resort envisioned a small tropical hideaway that would let adventurous travelers experience the unique beauty of Roatan and the Caribbean. That dream is now your experience at Anthony's Key Resort as we combine modern luxuries with an awe-inspiring environment.

The center of your adventure at Anthony's Key Resort is the resort itself. Find intimacy with your surroundings and experience the calming aura of a peaceful island village. Charming, wooden bungalows dot the resort's palm-studded hillside and surround a shimmering lagoon. A brief boat ride from the resort's main grounds, you'll find more private bungalows and spectacular ocean vistas. While a favorite pastime among guests is unwinding among the bungalow hammocks, those in search of adventure can enjoy exhilarating watersports on the Key's small beach.

Surrounded BY NATURE

Back at the resort's main grounds, a restaurant and bar are perched high on a hillside surrounded by towering coconut palms. Just steps below at the water's edge are the photo, gift, and dive shops, where fleet of state-of-the-art dive boats reside.

A short walk from the docks takes visitors to the Roatan Museum and Roatan Institute of Marine Sciences, where guests can participate in educational programs and encounters with marine mammals. Inquisitive guests can join trained naturalists across the lagoon on Bailey's Key to interact with playful dolphins and discover some of the island's indigenous plants and animals along the Key's nature trail.
